

Dansnaam: Trailerhood

Artiest: Toby Keith

Song: Trailerhood

My neighbor Carl, he lives next door
Pink flamingos on his porch
At night he teaches driving school
And he sits out by his plastic pool
He takes off his shirt and he opens up a cold one
Ol' Carl Dean's a fool, but it takes one to know one

Chorus:

Music's playing up and down the block
Mostly christian, blues, country, folk, and southern rock
It's a little piece of paradise way out here in the woods
There's always something going on down in the trailerhood

Across the street there's Gambling Jane
who's always got the poker game
If you care to try your luck
you can buy a seat for 15 bucks
You can call to raise or you can check and fold 'em
I like five card stud, but it's mostly Texas hold 'em

Chorus

My new tattoos and farmer tans, rodeo and NASCAR fans
Dallas Cowboys football on tv
When the storm starts getting bad
You hear those sirens humming
Grab a six pack and a lawn chair
There's a tornado coming

Alright

Chorus

I got her made in the shade with the moonshine lemonade
There's a party going on down in the trailerhood

Bring me another beer Mama
